COMMUNITY HEALTH PLAN OF WASHINGTON

# 2025 Apple Health Expansion Drug Formulary

# **COMMUNITY HEALTH PLAN of WASHINGTON APPLE HEALTH EXPANSION 2025 DRUG FORMULARY**

The Community Health Plan of Washington (CHPW) drug formulary is developed by a Pharmacy and Therapeutics Committee. For medications included in the Apple Health Preferred Drug List, formulary status and coverage criteria are developed and approved by the Washington State Authority (HCA) Pharmacy and Therapeutics Committee before adoption by CHPW. All other medications' formulary status and coverage criteria are developed and approved by the CHPW Pharmacy and Therapeutics Committee. The formulary is searchable on the website at [chpw.org/for-members/pharmacy](http://chpw.org/for-members/pharmacy). For more information on the Apple Health Preferred Drug List, please visit: [www.hca.wa.gov/billers-providers-partners/program-information-providers/apple-health-preferred-drug-list-pdl](http://www.hca.wa.gov/billers-providers-partners/program-information-providers/apple-health-preferred-drug-list-pdl). The Formulary may change at any time.

For updates regarding periodic changes to the Formulary and other pharmaceutical management programs please check our website at [chpw.org/for-members/pharmacy](http://chpw.org/for-members/pharmacy) or call our Customer Service at 1-800-440-1561 (TTY: 711), Monday through Friday, 8 a.m. to 5 p.m.

This Drug Formulary is intended for use by our providers and pharmacies and applies only to medications prescribed to our members and dispensed by participating network pharmacies. The Formulary does not apply to inpatient medications.

## **Generic Drug Policy**

Community Health Plan of Washington utilizes a mandatory generic policy. This means that unless specified, the brand product won't be covered without adequate trial and documented failure of the formulary generic product. Only when generic substitution conflicts with state regulations or restrictions, the pharmacist must gain approval from the prescriber to use the generic equivalent.

## **OTC Medication Policy**

Some Over-The-Counter (OTC) products are covered with a written prescription. If a prescription product is available in the identical strength, dosage form, and active ingredient(s) as an OTC product, the prescription product will not be covered. In these instances, providers and pharmacists should refer members to the OTC equivalent product. If the member or provider insists on the prescription equivalent product, the member must pay the entire cost of the prescription.

## **Age Restrictions**

Age restrictions apply to selected drugs. These drugs are covered without prior authorization for specific age ranges but otherwise require prior authorization.

- Mental health medications outside of HCA mandated age/dose limits
- Tretinoin—covered for members under 30 years old
- Opioid prescriptions outside of HCA mandated age/dose limits

## **Exception Request**

The health care professionals consulted in the development of this Formulary attempted to include medications for all therapeutic needs. Providers are expected to comply with the Drug Formulary when prescribing medications for plan members. If a patient requires a medication that is not covered, the provider may request an exception to allow payment for the non-covered medication. It is anticipated that such exceptions will be rare, and that most of the time, providers should be able to find a Formulary medication for the vast majority of therapeutic needs. However, if providers desire a non-covered product for members, they must call or submit a request explaining the necessity, past therapeutic failures and patient identification (name, address and Community Health Plan of Washington member number).

## **Prior Authorization**

To promote the most appropriate utilization, selected high-risk or high-cost medications require prior authorization to be eligible for coverage. Prior authorization criteria have been developed using current, published, peer-reviewed, medical literature, as well as input from local providers.

The prior authorization criteria are approved by the P&T Committee. The Formulary medications that require prior authorization are identified by a “PA” following their name. Most authorizations are good for one year; after that, the drugs listed here will need to be reauthorized. Drugs may be added or deleted from this list as deemed necessary.

### **Prior Authorization Requests:**

Non-Formulary and Prior Authorization requests must be directed to:

Express Scripts

Attn: Prior

Authorization Mail

Stop B401-03

8640 Evans Road St. Louis, MO 63134

**Phone:** 844-605-8168 **Fax:** 877-251-5896

Electronic Prior Authorization requests can be submitted through: [express-scripts.com/PA](https://express-scripts.com/PA)

## **Step Therapy**

Step–therapy promotes appropriate utilization of first line drugs and/or therapeutic categories. Step–therapy requires that participants receive one or more first–line drug(s), as defined by program criteria, before prescriptions are covered for second–line drugs. All step–therapy programs are supported by prior authorization criteria to determine coverage in the event that a participant does not meet the automated, on–line step–therapy criteria and coverage of a second line product is medically necessary.

## **Benefit Exclusions**

Drugs in the following categories are not available as benefits of the plan:

- **Non-FDA approved drug products** Medications will be eligible for coverage only if they are FDA-approved prescription medications used for non-experimental indications.
- **Experimental and Investigational (E & I) drugs** These are drugs that do not have FDA-approved indication(s) for use, or other indications that are considered effective based on published scientific evidence.
- **Compounded drugs with non-FDA approved ingredients** (e.g. Estriol used in Bi-Est and Tri-Est)
- **Samples** Members started on samples of a non-formulary drug are not guaranteed coverage for that drug.
- **Drugs for weight loss or appetite suppression** (e.g. Xenical)
- **Drugs for impotence or sexual dysfunction** (e.g. Viagra)
- **Drugs to treat cosmetic issues** (e.g. Rogaine)
- **Infertility drugs**
- **Prescription drugs that are equivalent to OTC medications or with an OTC add on** (Some OTC medications are covered for Apple Health Expansion.)

## **Benefit Information:**

### **Retail Pharmacy**

A 30-day supply is allowed at all network retail pharmacies and a 90-day supply of select generic maintenance medications at select pharmacies.

### **Mail Order Pharmacy**

Contact Costco pharmacy at 1-800-607-6861 to get your medications sent to you.

### **Copay Determinations**

There is no copay or deductible for formulary products for Apple Health.

### **OTC products:**

Only certain OTC products are covered for Community Health Plan of Washington members as determined by the Apple Health Preferred Drug List.

**Formulary Legend:**

Generic drugs are listed in lower case

BRAND drugs are listed in UPPER case

**P:** Preferred

**NP:** Non-Preferred

**PA:** Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

**QL:** Quantity Limit. For certain drugs, there are limits on the amount of the drug that we will cover.

**ST:** Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

## **COMMUNITY HEALTH PLAN OF WASHINGTON**

### **FORMULARIO DE MEDICAMENTOS 2025**

El Formulario de medicamentos de Community Health Plan of Washington (CHPW) es desarrollado por el Comité de Farmacia y Terapéutica (P&T). Para los medicamentos incluidos en la Lista de medicamentos preferidos de Apple Health, el Comité de Farmacia y Terapéutica de la Autoridad de Atención Médica de Washington (HCA) desarrolla y aprueba el estado del formulario y el criterio de cobertura antes de que CHPW los adopte. El resto de los criterios de cobertura y de los estados de los formularios de medicamentos son desarrollados y aprobados por el Comité de Farmacia y Terapéutica de CHPW. El formulario se puede consultar en el sitio web [chpw.org/formmembers/pharmacy](http://chpw.org/formmembers/pharmacy). Para obtener más información sobre la Lista de medicamentos preferidos de Apple Health, visite [hca.wa.gov/billers-providers-partners/programs-and-services/apple-health-preferred-drug-list-pdf](http://hca.wa.gov/billers-providers-partners/programs-and-services/apple-health-preferred-drug-list-pdf). El Formulario puede cambiar en cualquier momento.

Para acceder a los cambios periódicos en el Formulario y otros programas de administración de productos farmacéuticos, visite nuestro sitio web en [chpw.org/for-members/pharmacy](http://chpw.org/for-members/pharmacy) o llame a nuestro Servicio al Cliente al 1-800-440-1561 (TTY: 711), de lunes a viernes, de 8 a. m. a 5 p. m.

Este Formulario de medicamentos está destinado a nuestros proveedores y farmacias, y se aplica solo a los medicamentos recetados a nuestros miembros y proporcionados por las farmacias de la red participantes. El Formulario no se aplica a medicamentos para pacientes internados.

#### **Políticademedicamentosgenéricos**

Community Health Plan of Washington utiliza una política genérica obligatoria. Esto significa que, a menos que se especifique lo contrario, el producto demarca no estará cubierto sin un estudio adecuado y un registro del fracaso del producto genérico del formulario. Solo cuando la sustitución por un genérico entre en conflicto con las restricciones o regulaciones estatales, el farmacéutico debe obtener la aprobación de la persona autorizada a dar recetas para usar el equivalente genérico.

#### **Políticademedicamentosdeventa libre(OTC)**

Algunos productos de venta libre (OTC, por sus siglas en inglés) están cubiertos con una receta escrita. Si un producto con receta está disponible con los mismos ingredientes activos, potencia y dosificación que un producto de venta libre, el producto con receta no estará cubierto. En estos casos, los proveedores y farmacéuticos deberían ofrecer a los miembros el producto equivalente de venta libre. Si el miembro o proveedor insisten en el producto equivalente con receta, el miembro debe pagar el costo total de la receta.

## **Restricciones de edad**

A ciertos medicamentos seleccionados se les aplican restricciones de edad. Estos medicamentos están cubiertos sin autorización previa en grupos de edad específicos, pero, en otros casos, se requiere autorización previa.

- Medicamentos para la salud mental no contemplados en los límites de dosis y edad indicados por la HCA
- Tretinoína: cubierta para miembros menores de 30 años
- Medicamentos con receta opiáceos no contemplados en los límites de dosis y edad indicados por la HCA

## **Solicitud de excepción**

Los profesionales de la atención médica consultados durante el desarrollo de este Formulario intentaron incluir medicamentos para todas las necesidades terapéuticas. Se espera que los proveedores cumplan con el Formulario de medicamentos cuando receten medicamentos a los miembros del plan. Si un paciente requiere un medicamento que no está cubierto, el proveedor puede solicitar una excepción para permitir el pago del medicamento no cubierto. Está previsto que dichas excepciones sean poco frecuentes y, la mayoría de las veces, los proveedores deberían poder encontrar un medicamento dentro del Formulario para la amplia mayoría de las necesidades terapéuticas. No obstante, si un proveedor desea un producto no cubierto para los miembros, debe llamar o presentar una solicitud en la que detalle la necesidad, los fracasos terapéuticos anteriores y la identificación del paciente (nombre, dirección y número de miembro de Community Health Plan of Washington).

## **Autorización previa**

A fin de promover la utilización más adecuada, los medicamentos de alto riesgo o alto costo seleccionados requieren autorización previa para calificar para la cobertura. Los criterios de autorización previa se han desarrollado con documentación médica actual, publicada y revisada por pares, así como también mediante aportes de proveedores locales.

Los criterios de autorización previa son aprobados por el Comité de Farmacia y Terapéutica. Los medicamentos del Formulario que requieren autorización previa están identificados con las letras "PA" luego del nombre. La mayoría de las autorizaciones tienen validez durante un año; después se deberán volver a autorizar los medicamentos incluidos aquí. Community Health Plan of Washington puede agregar o eliminar medicamentos de la lista, según lo considere necesario.

### **Solicitudes de autorización previa:**

Las solicitudes de autorización previa y de medicamentos externos al Formulario deben dirigirse

a: Express Scripts

Attn: Prior

Authorization Mail

Stop B401-03

8640 Evans Road St. Louis, MO 63134

**Teléfono:** 844-605-8168

**Fax:** 877-251-5896

Las solicitudes de autorización previa electrónicas deben enviarse a: [express-scripts.com/PA](https://express-scripts.com/PA)

### **Tratamiento escalonado**

El tratamiento escalonado promueve una utilización adecuada de medicamentos de primera línea o categorías terapéuticas. El tratamiento escalonado requiere que los participantes reciban uno o más medicamentos de primera línea, según lo definan los criterios del programa, antes de que se cubran las recetas de medicamentos de segunda línea. Todos los programas de tratamiento escalonado están respaldados por los criterios de autorización previa para determinar la cobertura en caso de que un participante no cumpla con los criterios de tratamiento escalonado automatizados y en línea, y la cobertura de un medicamento de segunda línea sea médicamente necesario.

### **Exclusiones de los beneficios**

Los medicamentos en las siguientes categorías no están disponibles como beneficios del plan:

- **Productos farmacológicos no aprobados por la FDA:** los medicamentos calificarán para la cobertura solo si son medicamentos con receta aprobados por la FDA utilizados con indicaciones no experimentales.
- **Medicamentos experimentales y de investigación:** estos son medicamentos que no tienen indicaciones aprobadas por la FDA para el uso u otras indicaciones que se consideran efectivas sobre la base de evidencia científica publicada.
- **Medicamentos compuestos con ingredientes no aprobados por la FDA:** (p. ej., Estriol utilizado en Biest y Triest)
- **Muestras:** los miembros que comenzaron con una muestra de un medicamento externo al formulario no tienen garantía de cobertura para ese medicamento.
- **Medicamentos para la pérdida de peso o suspensión del apetito:** (p. ej., Xenical)
- **Medicamentos para la impotencia o disfunción sexual:** (p. ej., Viagra)
- **Medicamentos para tratar problemas estéticos:** (p. ej., Rogaine)
- **Medicamentos contra la infertilidad**
- **Medicamentos con receta que son equivalentes a medicamentos de venta libre o con un complemento de venta libre:** (algunos medicamentos de venta libre están cubiertos para Apple Health Expansion).

## **Información sobre los beneficios:**

### **Farmacia minorista**

Se permite un suministro de 30 días en todas las farmacias minoristas de la red y un suministro de 90 días de medicamentos genéricos de mantenimiento seleccionados en farmacias seleccionadas.

### **Farmacias de venta por correo**

Póngase en contacto con la farmacia de Costco al 1-800-607-6861 para que le envíen los medicamentos.

### **Determinaciones de copago**

No hay copago ni deducible para los productos del formulario de Apple Health.

### **Productos de venta libre**

Solo ciertos productos de venta libre incluidos en la Lista de medicamentos preferidos de Apple Health están cubiertos para los miembros de Community Health Plan of Washington.

### **Texto del formulario**

Los medicamentos genéricos están en minúscula.

Los medicamentos de MARCA están en MAYÚSCULA.

**P:** Preferido

**NP:** No Preferido

**PA (Prior Authorization):** autorización previa. El Plan requiere que usted o su médico obtengan autorización previa para ciertos medicamentos. Esto significa que usted deberá obtener aprobación antes de surtir sus recetas. Si usted no obtiene la aprobación, puede que no cubramos el medicamento.

**QL (Quantity Limit):** límite de cantidades. Para ciertos medicamentos, existen límites a la cantidad del medicamento que cubriremos.

**ST (Step Therapy):** tratamiento escalonado. En algunos casos, el Plan requiere que usted pruebe ciertos medicamentos para tratar su afección médica antes de que cubramos otro medicamento para su afección. Por ejemplo, si el medicamento A y el medicamento B tratan la misma afección médica, es posible que no cubramos el medicamento B a menos que pruebe el medicamento A primero. Si el medicamento A no funciona para usted, entonces cubriremos el medicamento B.
