Appointment Access Standards

Access to care means a patient has the ability to see a qualified health provider within a reasonable period of time.

Access standards have been developed to ensure that all health care services are provided in a timely manner.

Access to transportation, and language services are important to ensure adequate access to care.

Note:
• Phone pick up time should be no longer than 10-seconds
• Office waiting time for scheduled appointments:
  o Not to exceed sixty (60) minutes
  o If a provider is delayed, the patient should be notified
  o If wait time exceeds ninety (90) minutes, the patient should be offered a new appointment.
